Once received, our staff will process the resolution form and respond to your concern via email. If you have any questions regarding this form, please contact us at doveresolutionrequest@dovecanyongc.com.

Perimeter Tree Policy: As the club matures, so do the trees planted on the golf course property. Many of these trees have matured and do sometimes obstruct views for hundreds of homes that surround the golf course. As a result, we receive multiple requests for tree trimming or removal for their sole benefit. While we regret the blockage, we simply cannot trim or remove trees along our perimeter. In fact, many of our members would prefer if we planted more trees to block the sight of the homes.

In the case of trees that hang over fences into homeowner yards, we will certainly be good neighbors and trim back to our property line. If a resident feels there is danger of a tree falling into their yard, our superintendent (and arborist) will inspect and act accordingly.

We sincerely want to be a good neighbor but please understand we are running a business and will not spend monies and compromise our members' playing experience simply to satisfy one request for a better view. However, the improvements to the golf course and clubhouse will continue to increase property values for our residents in the Dove Canyon community.
