Once received, our staff will process the resolution form and respond to you concern via email. If you have any questions regarding this form, please contact us a customercare@dovecanyongc.com

DOVE CANYON
GOLF CLUB

Perimeter Tree Policy

Now that our club is approaching 30 years of age, trees that were planted on the golf course property have grown to such an extent that many are now blocking views for the hundreds of homes along the course. As a result, we have had several residents ask us to either trim or cut down the trees for their sole benefit. While we regret the tree blockage, we simply cannot trim or cut down trees along our perimeter. As a matter of fact, it is our members desire for us to plant even more trees so they do not have to look at peoples' back yards!

In the case of trees hanging over fences, we certainly will be a good neighbor and trim back to our property line. If a resident feels that there is a danger of a tree falling into their yard, our superintendent, who is a licensed agronomist, will inspect and act accordingly.

We sincerely want to be a good neighbor, but please understand we are running a business and will not spend monies and compromise our members playing experience just to satisfy someone's request to have a better view. However, we will continue to work on improving the course and clubhouse which will, in turn, continues to increase the property values for our residents in the Dove Canyon community.
