TALKING WITH TONY

Did you know we have a rising YouTube star in our midst? That's right...our very own Chef Kyle Sessions is the newest YouTube sensation...or at least we think so! If you've been following our Dove Canyon Facebook page you may have already learned how to prepare Chef's famous Filet or his amazing Chicken Piccata, a Dove favorite. If you haven't seen Chef's videos, check him out on YouTube. We can't wait to see what he has for us next!

The biggest event of the year is back by popular demand, Swirl! Join us on Friday March 15th for our spring wine expo featuring over 50 outstanding wineries, live music and delicious food. Chef Kyle will delight your palate with fresh seasonal cuisine to pair with the many varietals on hand. We will also be having a raffle for a handful of awesome prizes including the grand prize of dinner for 8 in our beautiful wine room.

RESERVE YOUR SPOT EARLY FOR THIS GREAT EVENING!

And speaking of Chef's creations, keep the feedback on the new Grille Menu coming. There are certainly some clear favorites! Keep an eye out for Chef's new Impossible™ menu for our vegetarian and vegan members. The idea came from one of our members to expand past the Impossible™ Burger and Chef has taken that challenge head-on to create a specific menu using the alternative meat product. I've tried it - it tastes like a burger - imagine the possibilities!

Lastly, thank you for joining us for our Mardi Gras party! If you've looked at the 2019 events planner you know we host our first wine expo of the year in March...a Member favorite for sure! Make your reservation today to secure your spot! We hope to see you on March 15th!

The dance floor was a hit!

VALENTINES DAY

MGA

The sun finally showed itself and the rain stopped for the annual MGA Fire Cracker tournament. This fun four man team event is a great way to start off the 2019 MGA Season. Congratulations to the winning team of Bill Snow, Greg Elliott, Mark Canessa, and Mike Meursing!

MOTHER NATURE

The back half of the 3rd green under water, represents exactly how the month of February was for all of Southern California. Due to the crazy amounts of rain we had, the course was closed 9 days, and out of the days we were open, 11 of those were cart path only. With that being said, we haven't seen many of you in quite some time! The course is drying out nicely and Earl and his staff have done a great job getting the bunkers back into playable condition!

"You pick it Clinic"
Saturday, March 23rd
11:00 AM - 12:30 PM • \$25
Instructors - Scott Wasco, PGA's and Brett Massingham, PGA

A promotional graphic for a golf clinic. It features a background image of a golf course with a putting green in the foreground and a golfer in the background. The text is overlaid on the image in a white, bold font.

TEAM PLAY UPDATE

The Dove Canyon Thursday team has been handicapped by the rain almost every week. They have still only played two matches. Their record is 0-2.

The Saturday team is off to a solid start with a record of 3-0-1. Their most recent victory on 2/23 at Yorba Linda CC puts them in a great position for the playoffs! Keep it going guys!

With all of the rain we have had in February we had a small turnout for the putting clinic. However, it was a great learning experience by all. Brett used the time to help simplify the way everyone thinks on the green and fine tune everyone's putting fundamentals.

COURSE AND MORE

Golf Course Maintenance- Earl Kennel GCSAA

LIKE A WET AND WILD SLIP AND SLIDE

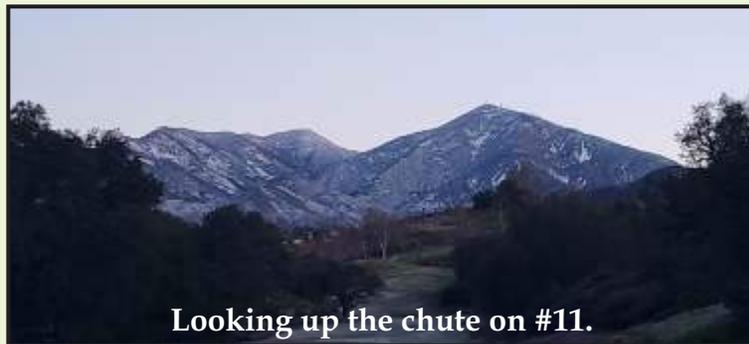

Since January 1st we have received over fourteen and a half inches of precipitation, with over eight inches in February alone. While I believe the golf course is draining better, the golf course has reached its capacity to absorb, and the last couple rain events have caused extended time riding cart paths.

Most of February has been spent repairing bunkers. A couple days, all hands were on deck with shovels fixing edges and removing sediment from bunker surfaces. If time can be taken to carefully remove the sediment, the sand can actually be cleaner and play newer after a heavy deluge.

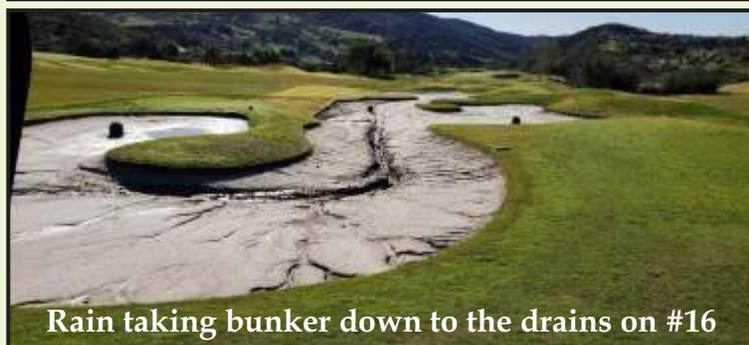

While the rain we have received is great for California, selfishly, I would like the rain to slow down a little so we can move on to other things.

Our own Tony Letendre was the only person to correctly name our recent beautiful plumage visitors. The Egyptian goose is native to Africa, south of the Sahara and the Nile Valley region. Apparently they can be very territorial but on my encounter they knew who was boss.

See you on the course,
Earl
