## October 2020

### Talking WITH TONY

#### On the Lighter Side...

Thank you to all the members who participated in this year's Dove Member-Guest...and of course congratulations to our champions! Bill Leonard and his son Chris took top Net honors while Nick Punto and Mark Mulder took top Gross honors. Both teams beat the heat to top the field. Derby Champions Stephen Baik and John Lee should also be recognized – and they won with a birdie on the final hole. Well done gentlemen, thank you all for playing!

This month brings the ladies' member-guest, the Dove Classic. We are excited to work with the committee, providing a fun couple of days our ladies will be proud to share with their guests. October is a great time of year; keep your fingers crossed for a couple nice fall days and many birdies! The more the merrier, bring a friend (or three) for what promises to be a great Dove Classic.

Speaking of nice days, October is one of my favorite months. The crisp mornings and the cool evenings at the club are great for outdoor dining. Chef will unveil a new 2 for \$39 menu this month, a perfect excuse for you to join us! Remember we have the heaters outside as the evening cools off. Watch for specials like the always popular Pasta Night, our new Tapas Tuesday, as well as a special upstairs dining night. October promises to be a great month to come to Dove.

As always, I look forward to seeing you at the club – Happy Halloween!

# GOLF COURSE UPDATE

**GOLF COURSE SUPERINTENDENT - EARL KENNEL, GCSAA**

## *What Happens During Aerification?*

Right after the Member-Guest tournament the Greens Department geared up to aerify the golf course's greens, tees and fairways. Things accomplished during the week include:

- Aerification and sanding of the golf course greens. Gypsum, Organic fertilizer, Bentgrass seed were applied to the greens.
- Fairways on the golf course were aerified to enhance water movement and organic material decomposition.
- Tees were scalped, verticut, aerified, overseeded and topdressed.
- Tree removal was performed on 10, 14, 16, 17.
- Kikuyu was sprayed around the greens to help keep the green surrounds hybrid bermuda.
- Approaches were topdressed to make approaches play similar to the greens.
- Gypsum and fertilizer were applied to fairways and rough.
- Bunkers were edged and flymown.

See you on the course,

*Earl  
at  
Dove*

There are probably some things I omitted. What I love about fall aerification is even though it can be a long week, we are putting the golf course in a good position for the fall and winter.
